****Dr. Sonia Popli, St. Thomas College, Bhilai**

ABSTRACT

A study of the influence of emotional maturity, gender and their interaction on aggressive behaviour of students was carried out on middle school students of Chhattishgarh. The emotional maturity scale developed by Dr Yashvir Singh and Dr Mahesh Bhargava (2012) was used to assess the emotional maturity of the students the data collected was subjected to statistical

Analysis and the findings were collected.

KEYWORDS

Aggressive behaviour, high emotional maturity, low emotional maturity, gender, equal extent.
