ABSTRACT

So, the idea of transcendentalism can be fathomed through the endless cycle of individual and God and Nature. Individual and Subjectivity is the core to understand transcendentalism. Idealism, Gothic literature and the basic beliefs of Romanticism need to be focused while analyzing transcendentalism. Nothingness becomes the crux of matter in the interpretation of both physical and spiritual world. Nothingness is a product of no-thing-

ness of the physical and spiritual world. First know yourself, awaken the soul and get absolutely merged into nothingness. Everything in the world including people is a reflection of god or the divine soul. Things existed everywhere is not the physical world but a spiritual one. God dwells in every soul, every particle living or non-living one. God resides in every individual.
