### **ABSTRACT**

*The term 'marginalization' is all about the resulted actions of human society. It's basically concerned about the basic tendencies of the people who are marginalized or excluded. The marginalized people are considered to be useless and undesirable for the progression. But, in fact,*

*they are very much useful for the development of nation. These people who have already been marginalized are basically from a community or a group.*

### **KEYWORDS**

*Inequality, Social Exclusion, Stratification, Progression, Being Marginalized*
